

Autumn

Overwintering Onions and Shallots, Broad Beans, Peas, Garlic and Flowering Bulb Guide

Updated 28th September, 2026

Autumn Champion Onion sets

£0.90 for 250g

Bred in Britain to withstand the climate it has been used commercially for years. This onion can be planted in September to November and matures in June to July. It stores well until the end of the year and it has an intense flavour.

Radar Onion sets

£0.90 for 250g

An improved Japanese variety. Good for planting from September – December and harvested from late May to early June. Resistant to bolting, mild tasting and stores well until spring.

Senshyu Yellow Onion sets

£0.90 for 250g

An improved Japanese variety. Good for early planting and can give a harvesting date 4 – 6 weeks earlier than Sturon. Mild flavour and can be used as a spring onion for salads. Plant in September – November and harvest in early June – July.

Shallots

Jermor Shallot

£1.90 for 250g

Long bulbs with copper coloured skin and rosy flesh. Superb flavour, excellent yield and good keeper. Plant from September to February and harvest 24-26 weeks later.

Currently Out of Stock
